Why does credit card fraud matter?

Why does credit card fraud matter?

EVERY POLICE STATION GETS 3-4 COMPLAINTS A DAY

Every police station, on an average, gets three to four complaints on cybercrime. Police stations in the city lack infrastructure and expertise to investigate cybercrime cases.

CREDIT, DEBIT CARD FRAUDS ON THE RISE

STATE'S CYBERCRIME CONTROL PROJECT

- The project was first drafted for Mumbai but was later extended to the state, with every district police having the infrastructure to deal with the menace
- Formation of four cyber cells equipped with latest hardware, software and tools
- Developing a force of 1,000 trained cyber cops
- Special fast-track courts dedicated to cyber crime cases
- Training prosecutors and judicial officers
- A Computer Emergency Response Team (CERT)

POLICE CHIEF MEETS REPRESENTATIVE OF 19 BANKS

Commissioner of police Ahmed Javed met senior officials of as many as 19 banks, including MDs, CEOs, directors and senior risk managers to discuss measures taken for data security. The meeting was held at the police commissioner office. Possible measures on data security that banks can put in place internally and co-operation with police in investigating cyber crimes were discussed

CITY POLICE YET TO GET FOUR CYBER CELLS, BUT GETS A DCP CYBER

Though the cyber crime cases are increasing manifold, city police are awaiting approvals for four CCICs which will look after cybercrimes of south, east-central and north regions. However, on Monday, city police got its first deputy commissioner of police (DCP)-cyber, M Rajkumar

BKC CYBER CRIME POLICE STATION OVERBURDENED

City's only cyber police station has only 15 officers, including a senior inspector and two senior inspectors

Since only an officer of inspector rank can be official investigating officer of a crime

under the IT Act, the two PIs are overburdened with over 100 cases each

Around 250 FIRs have been filed at the BKC cybercrime police station this year

In order to tackle the manpower issue, the police sent a recommendation earlier this year asking for amendment to section 78 of the IT Act and allow officers of police sub-inspector (PSI) rank and above to probe cases

The bottom line...

- All cardholders pay for credit card fraud losses
 - Victims spend time and money to repair the damage
 - Credit card issuers charge higher fees and interest rates to cover their losses
 - Victims of ID theft are not held liable for losses depending on terms, but it takes time and effort for victims to prove fraud.

Security Codes

- Security codes for Visa, MasterCard and Discover cards are the 3 digits located on the back of the card in the signature box.
- 3D Secure code
- OTP

New Cards

- For added protection, credit card issuers ask you to call from home to activate new credit cards
- As soon as you receive your new card, sign the back of it.
- Record all your account numbers and company contact information and keep the record in a secure place
- Never write down your personal identification number (PIN)
- Never give your PIN to anyone

Protect your account numbers

- Never write your credit card number on post cards or on the outside of envelopes
- Never provide your card number on the phone, unless you know it's a legitimate, reputable business
- Never give your account number to anyone who calls you on the phone or sends you an e-mail
- If you let others use your card, you are responsible for charges

Billing Statements

- Review credit card statements closely on the day they arrive
 - Report any questionable charges to your card issuer immediately
- A missing credit card statement may indicate stolen mail
 - Contact your card issuer right away if your bill doesn't arrive around the usual date

Online account access

- If you have a computer, consider signing up for online account access
- This way you can track your account activity between statements

Liability

- Fraud victims are not generally required to pay for unauthorized charges
- Victims may be liable for up to certain amount, depending on the circumstances

Watch your credit card

- Watch closely when store or restaurant employees handle your card to make sure they are not copying or “Skimming” your credit card number
- After you make a purchase and your card is handed back to you, make sure the card is yours.

Safeguard your mailbox

- Notify the post office and your credit card company immediately if you change your address
- Lock your mailbox. Never leave mail in an unlocked mail box or apartment building lobby
- Put your return address on out-going mail
- Shred unwanted credit card solicitations before discarding

Internet Safeguards

- If you bank online, don't use “automatic sign on” for bank or credit card sites
- Avoid providing your credit card number to websites offering “free access”
- Install a firewall in your computer to prevent unauthorized access from hackers

Reporting credit card fraud

- To report credit card fraud
 - Call your card company immediately about
 - Lost or stolen cards or PIN numbers
 - Unauthorized charges on your statement
 - Request a fraud affidavit
 - Get a police report if necessary

Dispute Resolution

IN CASE OF CREDIT CARD FRAUD

THE JUSTICE HOOPS

- **BANK**
What it costs? **Nil**
Time it takes: **30-45 days**
- **BANKING OMBUDSMAN**
What it costs? **Nil**
Time it takes: **30 days**
- **APPELLATE AUTHORITY**
What it costs? **Nil**
Time it takes: **Reserve Bank of India says it replies as soon as complaint is received**
- **COURT**
What it costs? **Depends on the lawyer's fee**
Time it takes: **Can extend into many years**

TIPS TO AVOID FRAUDS

- Use the virtual keyboard to key in the password
- Change your password frequently
- Use a combination of numbers, alphabets and special characters to make your password strong
- Go for credit cards that are chip-based as they are more secure as compared to those having magnetic strips
- Before logging in, check if the site has https and the lock sign in the address bar. In https, "s" stands for secured

Legal issues

- IPC – Section 419,420
- IT Act – Section 66C,66D

Thank you
